Commissioner for Patents

Dear Ms. or Sir,

I respectfully request that the two CD-ROM disks contained within be added with my patent application named: Angle Deciphering Device with Multiple Interface, dated and sent September 22, 2003. The Background of the Invention, Claims and Abstract can be accessed through using these disks with Microsoft's Word Processor, Microsoft Office 2000.

Very appreciative for your help,

David M. Solak
Engineer/Inventor
